What is Social Accounting & Audit?

Social Accounting and Audit (SAA) helps you understand the impact your organisation has on people, the planet and the way you use resources. It will also help you manage your organisation and improve your effectiveness. Social Accounting and Audit can be used by any organisation, whether voluntary, public or private sector, and of any size or scale. SAA is a logical and flexible framework which enables your organisation to build on existing documentation and reporting systems and develop a process so that you can:

Prove!
Account fully for and report on your organisation’s social, environmental and economic performance and impact

Improve!
Provide the information essential for planning future actions and improving performance

Account!
Be accountable to all those you work with and work for

Social accounts builds similar discipline as regards its social mandate within a social enterprise as does financial accounting within an ordinary enterprise. It is a very useful tool for the entire organisation, beyond the founder and social entrepreneur to carry on the activities of the organisation to meet double and triple bottomline targets.”
